

# Sustainable Fabrics

## Reduce

Plastic bottles in landfills, averaging 23 per gown

## Re-use

Those bottles to make GreenWeaver® and NuHorizon® fabrics

## Recycle

Unwanted gowns into new fabric

**Nearly 100 million plastic bottles have been diverted from landfills across the USA to make GreenWeaver® and NuHorizon® fabrics since 2009. More than 100 tons of fabric waste are recycled annually.**

**GreenWeaver®** Eco-friendly

**NuHorizon®** Eco-friendly

## Environmental Advantages

- Gowns can be recycled (not reused) by using the collection boxes provided by Oak Hall.
- Each gown purchased counts towards a rebate program to fund sustainability projects on your campus.
- CO<sub>2</sub> gas emissions are reduced by 54.6% in the process of manufacturing from plastic vs. polyester.
- Petroleum usage is reduced by over 52% by using thermal recycled energy.

## **Oak Hall is committed to our customers and our environment!**

- We have a carbon-based dry cleaning system for rental gowns.
- We use recycled cardboard boxes for shipping.
- We use recycled plastic bags for storing regalia.
- We have reduced paper use by printing instructions directly on regalia bags.

**OAK HALL**

made in the USA since 1889
